# PHILLIPS PET FOOD AND SUPPLIES DELIVERY CRITERIA

## Welcome to Phillips Pet Food and Supplies!

- Phillips Pet Food & Supplies is dedicated to providing our customers with timely, safe and accurate deliveries. With that in mind, we would like to share with you our delivery criteria to ensure we are working together to meet your needs.
- Due to the size of the tractor and trailer we deliver with, accounts must be able to accommodate a 48 foot trailer and tractor for a total of approximately 60 feet accessibility. Additionally, we ask to have a representative available to accept delivery.
- To ensure safety, our trucks do not enter or deliver to residential areas.
- Orders are delivered "store door" on wooden pallets or hand trucks. Store door delivery includes placing the product inside the store, back room or warehouse, or on a covered dock if requested by the customer.

### The following are not included in store delivery:

- Transporting product up and down stairs or narrow hallways - Placing products on shelving - Sorting product
- Rotating stock - Moving stored product to clear room for delivery - Lifting product over fences or barricades
- Hand carrying product throughout the store (must be accessible by hand truck or pallet jack)
- Additionally, Phillips' criteria is to ship products with at least four months of shelf life.

We trust you understand our need to protect our drivers from risk of injury while making deliveries. If you have any questions concerning deliveries please contact the Transportation Manager at 1-800-451-2817 x1246 or the Director of Logistics at 1-800 451-2817 x1218. We appreciate you choosing Phillips Pet Food and Supplies as your distributor.

---

## **RETURNS & CREDITS**

Updated April 2019

### **A. Eligible and Ineligible Issues**

Products purchased through Phillips Pet Food & Supplies (Phillips) may be authorized for return/credit, using these certain guidelines:

#### **1. DAMAGES/MANUFACTURERS DEFECTS/SPOILED/INFESTED PRODUCT**

Concealed damages, manufacturer defects, spoiled or infested product must be authorized by the Phillips Returns Department and should be called in within 48 hours of delivery. Unconcealed damages, manufacturer defects, spoiled or infested product should be noted with the driver at the time of delivery. Credit will be issued for eligible products upon receipt of UPC on consumable items and receipt of product on hard goods.

#### **2. OVERSTOCKS**

Phillips does not guarantee the sale on any product. Though we suggest that overstock products be discounted at the retail level, overstocked saleable product can be returned with prior approval, providing it has 4 months remaining before "Best By" date. The restocking fee for this return service is 20% of the price initially paid (including all discounts). Products must be returned within two weeks of purchase. Returns under this category should be initiated through the Returns Department. Products purchased as closeouts, or special orders will not be approved for return under any circumstance.

#### **3. MISPICKS/INCORRECT ORDERING/SHORTAGES**

Concealed shortages; incorrect ordering or mispicks should be called in to our Returns Department within 48 hours of delivery. Unconcealed shortages; incorrect ordering or mispicks must be noted with the driver at the time of delivery.

#### **4. FROZEN/REFRIGERATED PRODUCT**

Frozen product is covered separately from the above. Since a separate signature is required at time of delivery for frozen items, Phillips does not accept returns for defective packaging, out of condition product, incorrect ordering, or dating, unless identified at the time of delivery.

#### **5. OUT OF DATE/INFESTED PRODUCT**

Out of date products are not eligible for return. ALL products eligible for return under #2 (retailer return) must have 4 months shelf life remaining. Phillips will not issue credit for any unsaleable product due to improper stock rotation, or store infestation. It is our goal to consistently provide customers with fresh food products.

#### **6. COMMON CARRIER/UPS SHIPMENT:**

Shortages or damages on product received by Common Carrier or UPS must be called in immediately upon receipt. Shortages and external damages incurred during shipping will be handled in same manner as product delivered by Phillips truck.

#### **7. CUSTOMER SATISFACTION**

Most of our manufacturers list an 800 number for customer satisfaction issues. These calls usually result in a satisfactory "deal" for the consumer. If the customer needs to return product through the store, the customer name, phone number, and reason for return should be included with the RGA and the UPC or product returned to Phillips. Customer satisfaction claims for Wellpet should be handled directly with the Wellpet representative.

---

## **HOW TO REQUEST A RETURN/CREDIT**

To obtain an RGA, fill out the Return Form on the website. You may also fill out the Returns Form and either email or fax to [Returns@Phillipspet.com](mailto>Returns@Phillipspet.com).

For each viable return or request for credit, you should have the following information available:

- Reason for return or credit
- Invoice number and date
- Item number and price
- Expiration Date

For approved returns, an RGA will be issued and sent with our driver. For consumable returns outlined under #1 of our return policy, please remove the UPC(s). Please return UPC's and a copy of the RGA with your Phillips driver. Keep a copy for your records. Our drivers cannot accept any merchandise/UPC's from previous Deliveries not listed on the RGA. If product is from current (Today's) Delivery, Phillips driver will fill out a Return Log Sheet and leave a copy with you. Upon receipt and verification of product or UPC, a credit will be issued to your account, providing there are no discrepancies and/or incorrect information.

**On returned to stock items, credit will be issued for all resalable items. Phillips will only credit the following:**

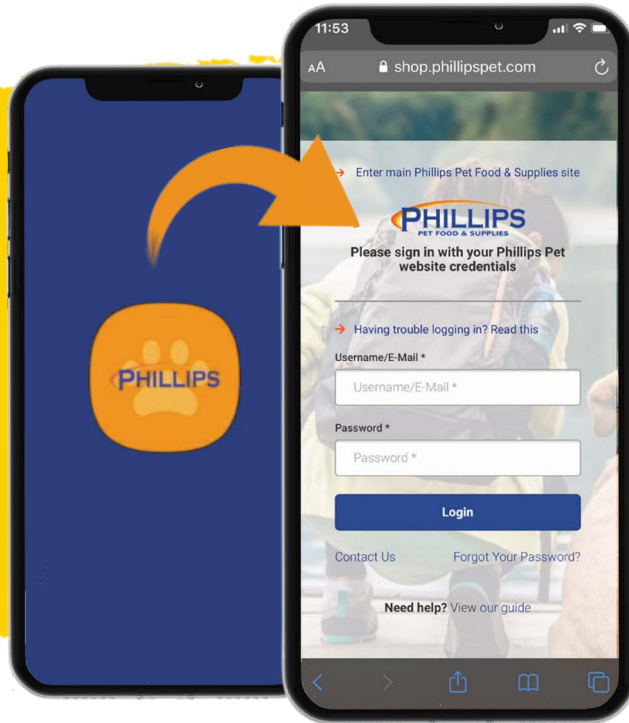

- Product free of price stickers and in original packaging
- Product in Phillips selling unit of measure. Example: full cases of cans
- Product free of infestation/contamination and with minimum 4 months shelf life remaining

Please be careful with your return! Products/UPC's that are disallowed for credit will be destroyed and credit will not be issued.

When criteria are met, credit will be issued and a credit invoice will be emailed or faxed to you.

The credit amount will appear on your account for use on subsequent invoices.

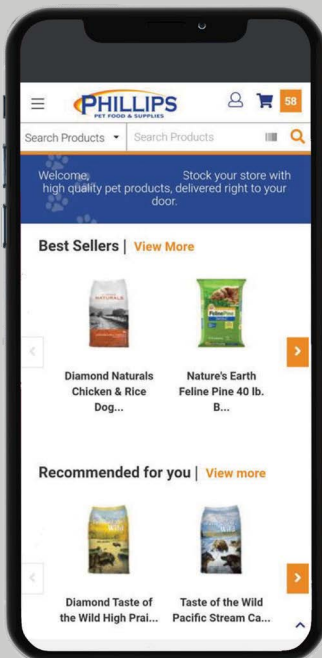

# You're now able to scan barcodes directly into Phillips New Ordering Portal!

## HOW TO USE THE BARCODE SCANNER FEATURE

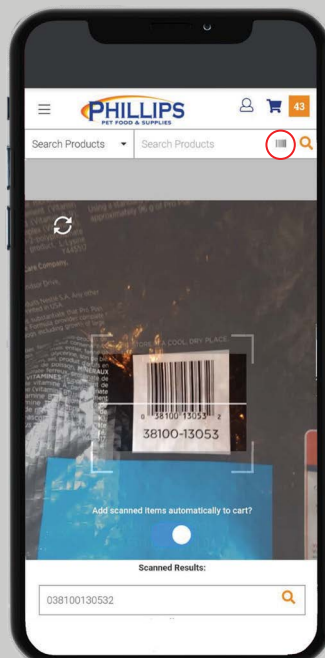

### STEP 1.

Sign in using a mobile browser

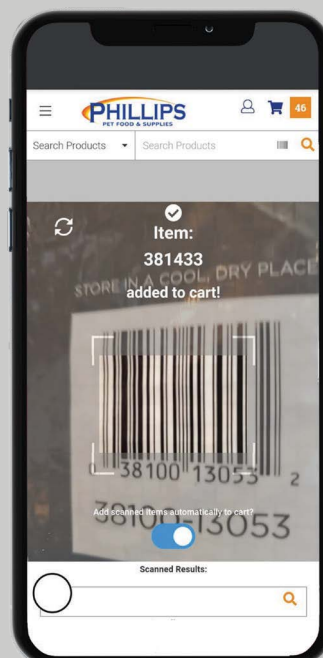

### STEP 2.

Tap the barcode in the top right
